## MAGNET RECEPTIVE FERROUS FILMS WITH DRY ERASE SURFACE

These films offer a ready to use 2-in-1-solution: they combine the magnet receptive function of our flexible ASLAN FerroSoft films with the easy write and wipe function of our dry erase films. Thus, you can create high-quality, multi-functional communication surfaces in just a single pass.

### Available versions:

Glossy, magnet receptive dry erase film, white

**FerroSoft Whiteboard ASLAN FF 550 PVC free**

Matte, magnet receptive dry erase film –  
suitable as a projection screen

**FerroSoft Whiteboard Matt ASLAN FF 490**

## MAGNET RECEPTIVE FERROUS FILM WITH CHALKBOARD SURFACE

Self-adhesive ferrous film with a matte, black chalkboard finish transforms any smooth surface into a magnet receptive chalkboard.

Can be written on with chalk pens and chalk any number of times without leaving shadows or ghosting.

Flexible, magnet receptive chalkboard film

**FerroSoft Blackboard ASLAN FF 540**

## 2-IN-1-MEMOBOARD FILMS

**2-in-1  
memoboard films:  
magnet receptive,  
easy write and  
wipe function.**

## GLOSSY PREMIUM DRY ERASE FILMS

### Benefits of ASLAN Dryapply technology:

- Ideal combination of adhesive, backing and structural characteristics
- Extremely fine air egress channels allow quick and easy bubble-free application
- Can be easily applied onto large surfaces

## HIGH-QUALITY DRY ERASE FILMS FOR EASY APPLICATION

These films are extremely scratch-resistant and can be written on any number of times with dry erase markers – with no trace of ghosting or shadows.

### Available versions:

Glossy dry erase film for dry application in white  
**Whiteboard Dryapply ASLAN WBL 995**

PVC free dry erase film in white  
**Whiteboard PP Dryapply ASLAN WBL 998**

## HIGH-QUALITY SCRATCH-RESISTANT DRY ERASE FILMS

These films can be applied onto any smooth surface, such as doors or walls. Writings with dry erase markers can be easily wiped off dry using a soft cloth. Even frequent writing does not leave ghosting or shadows.

### Available versions:

Glossy dry erase film in white  
**Whiteboard ASLAN WB 995**

Glossy dry erase film, clear  
**Clearboard ASLAN CB 90**

Glossy dry erase film in six colors\*  
**WhiteboardColour ASLAN WBC 996**

\*Additional colors are available on request.

## HIGH-QUALITY DRY ERASE FILMS – SUITABLE FOR PROJECTIONS

These self-adhesive films can be applied quickly and easily onto smooth surfaces, creating additional media projection options. Writings with dry erase markers can be easily wiped off dry using a microfiber cloth, without leaving any ghosting and shadows – a dry erase and a projection surface in one!

### Available versions:

Matte dry erase film in white

**WhiteboardMatt ASLAN WB 975**

Matte dry erase film, clear

**ClearboardMatt ASLAN CB 75**

## MATTE DRY ERASE FILMS

Numerous combination  
possibilities:  
we are happy  
to advise you!

## CHALKBOARD FILMS

## HIGH-QUALITY CHALKBOARD FILMS IN FOUR DIFFERENT VERSIONS

Our high-quality self-adhesive chalkboard films are the ideal alternative to heavy chalkboards or chalkboard paint. They can be cut into any imaginable shape or size and can be applied to smooth surfaces quickly and cleanly.

Writings with chalk or liquid chalk pens (on ASLAN BB 910 and ASLAN CR 63) can be cleaned with a damp cloth and do not leave any ghosting or shadows – this makes them the ideal medium for frequently changing messages.

### Available versions:

Chalkboard film for chalk and liquid chalk in black  
**PremiumBlackboard ASLAN BB 910**

Chalkboard film for chalk in black  
**Blackboard ASLAN C 61**

Especially scratch-resistant chalkboard film for chalk in black  
**Blackboard AntiScratch ASLAN CR 62**

Scratch-resistant chalkboard film for chalk and the liquid chalk pen ASLAN C-pen, clear  
**ClearChalk ASLAN CR 63**

## MAGNET RECEPTIVE FERROUS FILM

This self-adhesive ferrous film makes any smooth surface suitable for placing magnets. It can be cut easily into any imaginable shape or size and can be combined just as easily with other self-adhesive ASLAN films to create a multi-functional dry erase board, chalkboard or colored memoboard.

Ferrous film, anthracite colored  
**FerroSoft ASLAN FF 410** PVC Free

## PRINTABLE FERROUS FILM, MAGNET RECEPTIVE

With this white, matte ferrous film any surface becomes suitable for placing magnets. It is digitally printable, allowing you to create custom-designed magnet boards. In combination with our clear chalkboard and dry erase films it can additionally be written on with chalk or dry erase markers.

## FLEXIBLE FERROUS FILMS

## WRITABLE GLASS DECORATION FILM

**2-in-1  
solution:  
glass decoration film  
with dry erase function.**

## GLASS DECORATION FILM WITH WRITABLE SURFACE

Create presentation areas by turning just about any transparent surface into a dry erase! With this ASLAN glass decoration film you can create classy, decorative privacy screens with a dry erase function – in any desired shape and size. Thanks to the ASLAN Dryapply technology, the film can be dry-applied easily and can be written on with dry erase markers any number of times without leaving shadows or ghosting.

**EtchedBoard Dryapply ASLAN EBL 300** **Dryapply**

## SELF-ADHESIVE REAR PROJECTION FILMS IN TWO DIFFERENT VERSIONS

ASLAN rear projection films are the ideal medium for striking, high-impact presentations of videos, live broadcasts and images. Applied onto a rigid, clear surface, they form a projection screen that can be operated by using standard projectors as well as interactive projection systems.

Both, the translucent and the transparent alternative, are characterized by their high level reproduction quality, strong contrasts and high color brilliance even in bright environments with applications behind glass.

The transparent version provides a clear view: backgrounds, like objects exhibited in a shop window, can be incorporated creatively into multimedia design concepts.

### Available versions:

Translucent rear projection film

**RearProjection ASLAN RP 35**

Transparent rear projection film

**RearProjection Transparent ASLAN RP 36 PVC free**

## REAR PROJECTION FILMS

## FLEXIBLE, SELF-ADHESIVE MAGNETIC FILM AND FERROUS PAPER

The image is divided into two main sections. On the left, there's a stylized illustration of a travel agency. A large sign at the top reads "TRAVEL AGENCY". Below it, a woman with glasses sits at a desk with a computer, while another person stands behind her. A large grey circle on the left contains the text: "Up to three layers of ASLAN ferrous papers can mount safely to MagneTack ASLAN MT 400." On the right, there's a close-up of a magnetic display board. It shows a blue fabric-like background with a black frame. Inside, there are three layers of ASLAN FerroPaper: a white layer with a photo of a smiling woman, a yellow layer with text about a school trip to Madrid, and a red layer with a 50% discount offer. At the bottom, a grey circle identifies the "Base MagneTack ASLAN MT 400".

## MAGNETIC SELF-ADHESIVE FILM

ASLAN's magnetic self-adhesive film opens up new opportunities for creating retail spaces, points of purchase/sale or exhibition stands. Applied to flat and smooth surfaces, MagneTack ASLAN MT 400 is the perfect base to place ASLAN's printable ferrous papers for your marketing messages or special offers. Due to the film's high barium and strontium ferrite level, up to three layers of ASLAN ferrous papers can mount safely to the surface without curling or sliding. Furthermore, the film is easy to apply since its flexibility and thickness of 400 µm allow easy handling.

Magnet film, anthracite

**MagneTack ASLAN MT 400**

## PRINTABLE FERROUS PAPER, MAGNET RECEPTIVE

Ferrous papers are foolproof and bubble-free to apply to the magnetic film MagneTack ASLAN MT 400. The white surface is printable with common printing systems. Applied and repositioned within seconds, ferrous papers are the best way to present your changing marketing message, special offers etc. to your customers. Up to three layers of ferrous papers can stick safely to ASLAN's magnetic film and they are fast and easy to change.
