

Manufacturer of
self-adhesive specialty films made in Germany

Since
1950

ASLAN®
EXPERTISE IN SELF-ADHESIVE FILMS

More than **70** years of **experience**

Since 1950, ASLAN is renowned for its skills in engineering high-quality niche products at its factory near Cologne, Germany. In-house R&D, laboratory and adhesive manufacturing securing quality levels and tailoring self-adhesive films while having an open ear to the customer and user base. Every single ASLAN self-adhesive vinyl is made with special adhesives and characteristics that make the difference to mass products, e.g. non-ghosting, scratch-resistant whiteboard and blackboard films, glass decoration vinyls with ASLAN Dryapply adhesive technology, double-sided metal effect films for printing and cutting, PVC free alternatives etc.

Made in **Germany**

After joining the POLI-TAPE Group, in 2021 we expanded to the US with a warehouse and staff to offer personal service, consulting with first hand expertise and product variety. Customers benefit from the massively increased product availability out of the warehouse in Jacksonville, FL from where we can deliver to most destinations within a few days.

Where **quality** meets **specialty**

Our mission is to develop self-adhesive films for niche markets, always driven by our experienced staff, in-house R&D and worldwide customers' demands – those are the source of inspiration for our self-adhesive solutions. When choosing ASLAN, you are always sure to apply high-quality vinyls with a comparative advantage.

In our **unique range** of **self-adhesive films** you will find the **high-quality solution** for your **customers' needs**:

- scratch-resistant **blackboard** and **whiteboard films** without ghostings even with frequent use
- **glass decoration vinyls** in various effects and with our proven ASLAN Dryapply technology
- double-sided **metal effect** and **special effect films** for full surface applications or cut motifs
- broad range of **digital printing films** and **laminates** – each with special characteristics for the chosen application
- clean removable **stencil masking films** ensuring sharp contours and preventing paint from bleeding underneath
- **double-sided self-adhesive films** to mount or to turn non-adhesive products into self-adhesives
- self-adhesive **protection** and **repair films** for books, maps, posters etc.
- **rigid PVC films** for creative purposes such as lamp shades
- customized **industrial** and **medical** self-adhesive solutions
- matt and glossy **colored vinyls** for applications on glass or walls
- plus: **your customized self-adhesive solution** – tailor-made to your needs

Where quality meets specialty – the slogan stands for ASLAN’s core values. We offer expertise in self-adhesive films since 1950 and clients worldwide appreciate our personal, knowledgeable support. With great joy we are now expanding into the North American market to offer the full range of high-quality products paired with our high-level of customer service. Reach out and let us convince you.

Martin Geveke | Managing Director

Growing ASLAN in North America is a great opportunity. We – the dedicated team at the ASLAN headquarters in Germany and myself here in the US – are excited to support all North American clients, users and consumers with our expertise in self-adhesive solutions to help realizing their projects.
