MAGNET RECEPTIVE FERROUS FILMS WITH DRY ERASE SURFACE

These films offer a ready to use 2-in-1-solution: they combine the magnet receptive function of our flexible ASLAN FerroSoft films with the easy write and wipe function of our dry erase films. Thus, you can create high-quality, multi-functional communication surfaces in just a single pass.

Available versions:

Glossy, magnet receptive dry erase film, white
FerroSoft Whiteboard ASLAN FF 550 **PVC free**

Matte, magnet receptive dry erase film – suitable as a projection screen
FerroSoft Whiteboard Matt ASLAN FF 490

MAGNET RECEPTIVE FERROUS FILM WITH CHALKBOARD SURFACE

Self-adhesive ferrous film with a matte, black chalkboard finish transforms any smooth surface into a magnet receptive chalkboard.

Can be written on with chalk pens and chalk any number of times without leaving shadows or ghosting.

Flexible, magnet receptive chalkboard film
FerroSoft Blackboard ASLAN FF 540

2-IN-1-MEMOBOARD FILMS

2-in-1
memoboard films:
magnet receptive,
easy write and
wipe function.

GLOSSY PREMIUM DRY ERASE FILMS

HIGH-QUALITY DRY ERASE FILMS FOR EASY APPLICATION

These films are extremely scratch-resistant and can be written on any number of times with dry erase markers – with no trace of ghosting or shadows.

Available versions:

Glossy dry erase film for dry application in white
Whiteboard Dryapply ASLAN WBL 995 Dryapply

PVC free dry erase film in white
Whiteboard PP Dryapply ASLAN WBL 998 PVC free Dryapply

HIGH-QUALITY SCRATCH-RESISTANT DRY ERASE FILMS

These films can be applied onto any smooth surface, such as doors or walls. Writings with dry erase markers can be easily wiped off dry using a soft cloth. Even frequent writing does not leave ghosting or shadows.

Available versions:

Glossy dry erase film in white
Whiteboard ASLAN WB 995

Glossy dry erase film, clear
Clearboard ASLAN CB 90 PVC free

Glossy dry erase film in six colors*
WhiteboardColour ASLAN WBC 996

*Additional colors are available on request.

Benefits of ASLAN Dryapply technology:

- Ideal combination of adhesive, backing and structural characteristics
- Extremely fine air egress channels allow quick and easy bubble-free application
- Can be easily applied onto large surfaces

HIGH-QUALITY DRY ERASE FILMS – SUITABLE FOR PROJECTIONS

These self-adhesive films can be applied quickly and easily onto smooth surfaces, creating additional media projection options. Writings with dry erase markers can be easily wiped off dry using a microfiber cloth, without leaving any ghosting and shadows – a dry erase and a projection surface in one!

Available versions:

Matte dry erase film in white
WhiteboardMatt ASLAN WB 975

Matte dry erase film, clear
ClearboardMatt ASLAN CB 75

CHALKBOARD FILMS

All chalkboard films are printable with UV curable inks.

HIGH-QUALITY CHALKBOARD FILMS IN FOUR DIFFERENT VERSIONS

Our high-quality self-adhesive chalkboard films are the ideal alternative to heavy chalkboards or chalkboard paint. They can be cut into any imaginable shape or size and can be applied to smooth surfaces quickly and cleanly.

Writings with chalk or liquid chalk pens (on ASLAN BB 910 and ASLAN CR 63) can be cleaned with a damp cloth and do not leave any ghosting or shadows – this makes them the ideal medium for frequently changing messages.

Available versions:

Chalkboard film for chalk and liquid chalk in black
PremiumBlackboard ASLAN BB 910

Chalkboard film for chalk in black
Blackboard ASLAN C 61

Especially scratch-resistant chalkboard film for chalk in black
Blackboard AntiScratch ASLAN CR 62

Scratch-resistant chalkboard film for chalk and the liquid chalk pen ASLAN C-pen, clear
ClearChalk ASLAN CR 63

MAGNET RECEPTIVE FERROUS FILM

This self-adhesive ferrous film makes any smooth surface suitable for placing magnets. It can be cut easily into any imaginable shape or size and can be combined just as easily with other self-adhesive ASLAN films to create a multi-functional dry erase board, chalkboard or colored memoboard.

Ferrous film, anthracite colored
FerroSoft ASLAN FF 410 **PVC free**

PRINTABLE FERROUS FILM, MAGNET RECEPTIVE

With this white, matte ferrous film any surface becomes suitable for placing magnets. It is digitally printable, allowing you to create custom-designed magnet boards. In combination with our clear chalkboard and dry erase films it can additionally be written on with chalk or dry erase markers.

WRITABLE GLASS DECORATION FILM

2-in-1
solution:
glass decoration film
with dry erase function.

GLASS DECORATION FILM WITH WRITABLE SURFACE

Create presentation areas by turning just about any transparent surface into a dry erase! With this ASLAN glass decoration film you can create classy, decorative privacy screens with a dry erase function – in any desired shape and size. Thanks to the ASLAN Dryapply technology, the film can be dry-applied easily and can be written on with dry erase markers any number of times without leaving shadows or ghosting.

Matte glass decoration film with dry erase finish
EtchedBoard Dryapply ASLAN EBL 300 Dryapply

SELF-ADHESIVE REAR PROJECTION FILMS IN TWO DIFFERENT VERSIONS

ASLAN rear projection films are the ideal medium for striking, high-impact presentations of videos, live broadcasts and images. Applied onto a rigid, clear surface, they form a projection screen that can be operated by using standard projectors as well as interactive projection systems.

Both, the translucent and the transparent alternative, are characterized by their high level reproduction quality, strong contrasts and high color brilliance even in bright environments with applications behind glass.

The transparent version provides a clear view: backgrounds, like objects exhibited in a shop window, can be incorporated creatively into multimedia design concepts.

Available versions:

Translucent rear projection film

RearProjection ASLAN RP 35

Transparent rear projection film

RearProjection Transparent ASLAN RP 36 PVC free

REAR PROJECTION FILMS

3600 yd² rear projection film applied – watch the stunning video on YouTube.
