# Glassline

Self-adhesive films for glass designs

**ASLAN<sup>®</sup>**   
EXPERTISE IN SELF-ADHESIVE FILMS

## The ASLAN Dryapply technology

The unique **ASLAN Dryapply technology** makes application particularly quick and easy.

A special structure with extremely fine air release channels guarantees bubble-free application without using liquid. This structure, combined with a special adhesive, allows easy repositioning during application without risk of damage (stress whitening).

After application, the adhesive wets out and the adhesive strength increases, making the film ideal even for long-term applications.

## The ASLAN glassline: product overview

Product		Characteristics	Durability (years)*	Width (inches)	Length (yards)
Printable glass decoration films for especially easy dry application					
<b>PrintEtched Dryapply</b> ASLAN DFL 300	<b>Dry apply</b>	Polymeric, printable	7	54" + 60"	55
