

A trio of rainbows

RAINBOW EFFECTS IN THREE UNIQUE STYLES:
PLAIN, WAVED OR STRIPED

ADVANTAGES:

- ➔ Rainbow effects in three unique styles: plain, waved or striped
- ➔ Identical effect on both sides
- ➔ Printable with latex, UV curable and screen printing inks
- ➔ Free from PVC and plasticizers, compliant with REACH regulations
- ➔ Ideal for plotter cutting
- ➔ 1.9 mil µm polyester ensures easy handling and prevents shrinkage
- ➔ Removable in one piece from glass and metal surfaces without adhesive residue
- ➔ Outdoor durability of up to three years

Plain, waved or striped: **Holographic** ASLAN SE 72, **HoloWave** ASLAN SE 73 and **HoloStripe** ASLAN SE 74 open up possibilities for eye-catching displays with three unique variants, guaranteeing maximum attention.

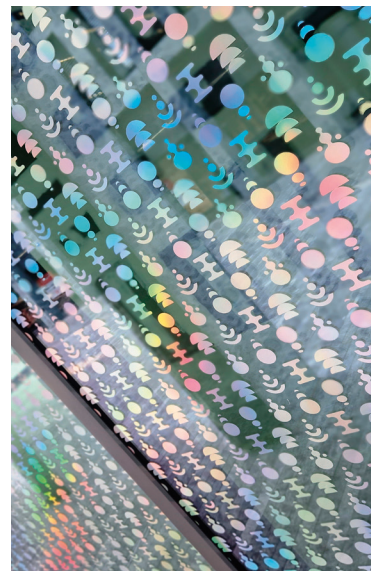

These innovative metallized polyester films impress with their double-sided visible rainbow effect. Whether as cut stickers, striking lettering or large-scale applications – they create highlights on shop windows, at the POS/POP, in the hospitality sector and wherever bold visual merchandising is required. Especially on glass, the double-sided effect fully unfolds, captivating both interior and exterior on smooth surfaces.

Equipped with ASLAN's proven solvent-free adhesive formula, these PVC free solutions can be removed from surfaces such as glass and metal without leaving any residue.

APPLICATION

Transform smooth surfaces into unique eye-catchers for temporary and medium-term installations, both indoors and outdoors on flat surfaces. The self-adhesive films are suitable for

- ➔ Striking designs, unique visual accents and attention-grabbing advertising concepts
- ➔ Cut designs, logos and lettering or full-surface applications

- ➔ Artistic decorations in shopfitting, interior design, exhibition construction and events
- ➔ Glass surfaces, as the effects are visible on both sides
- ➔ Production of labels and stickers that make an impact
